

Adam Carle, PhD

Professor of Pediatrics
Cincinnati Children's Hospital
Cincinnati, OH
adam.carle@cchmc.org

Adam Carle, Professor of Pediatrics at Cincinnati Children's Hospital Medical Center, is a clinically and quantitatively trained investigator. He is internationally recognized as an expert in patient reported outcomes, psychometrics, multilevel models, and quasi-experimental (observational) research methods. He is a primary investigator (PI), Co-PI, or Co-I on numerous Federal grants and has served as a reviewer for Federal granting agencies and national foundations. He is an Associate Editor at BMC Medical Research Methodology and has published over 100 peer reviewed manuscripts. He and his family run a small farm animal sanctuary, providing a home for abused and neglected cattle, sheep, goats, and chickens.
